Synopsis

new, slightly amended edition - original published in 1992 for an exhibition at Nietzsche House, 1992 - artist's book featuring Richter's series of painted-over photographs of mountain peaks and valleys in all seasons - an unassuming book, free from clichés and empty rhetoric This small-format artist's book was originally published for an exhibition at Nietzsche House in 1992 and is now available in a new edition with some minor changes. Richter's series of painted-over photographs of mountain peaks and valleys in all seasons, with titles such as Val Fex, Piz Tremoggia, and Rosatsch, was created during his holidays in the region over many years.
